

# VITAMIN

## Product Specification Sheet

### Product Description

The Ninety stool brings beauty and consideration to an often overlooked part of the stool – the foot rest. The Ninety stool promotes the foot rest as the main point of interest, ensuring this detail is both functional and aesthetic. Ergonomic studies indicate that the preferred foot support lies between 200mm and 300mm from the floor. Through the aid of CNC machining, the foot rest blends elegantly from the upright at 90 degrees. The angle produced by the perpendicular structure creates a variable foot rest height and allows the user to choose their perfect position (between 200mm and 300mm from the floor).

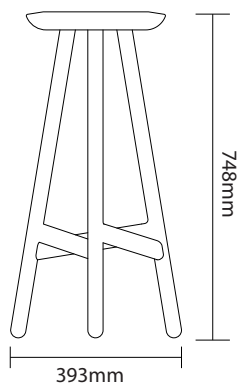

**Product Type:** Stool

**Materials:** Ash/Oak

**Colour:** Yellow, Grey, Black, Natural

**Cleaning Instructions:** Wipe clean with a slightly damp cloth.

### Overall Dimensions (mm)

### Available Colours

**Weight:** 3.95kg
