

# LOLA

design Alberto Meda / Paolo Rizzatto

**LUCE  
PLAN**

Type: Wall

Light source: LED dimmable R7s - Ømax 22 mm EEL: A++  
240W HDG R7s energy saver EEL: C  
Dimmable

Product use: Indoor

Materials: Rynite head, microperforated metal reflector,  
anti-UV Pyrex protection glass

Colors: Structure in alu, black

Description: The wall model is offered with a support for use at 230V and with the addition of a terminal strip for the 110V version in the USA and Japan. Wherever it is, Lola is a discreet and "lightweight" but distinct presence. Made with complex technologies and innovative materials, it is a wall-lamp for indirect lighting. The reflector can be orientated by means of a thin rod on the head

Insulation class:
