Product description:

A stool that fits all needs and wants, whether the focus be upon form, functionality, comfort, or durability. The two sides of the seating base are angled 10 degrees towards each other, a unique design feature which facilitates surprising comfort for a stool making this an ideal choice for supplementary seating. The leather band beneath the seat has a supporting brass rod which gives the stool a final touch of detail and a prominent form. In all, a very durable item because of its solid wood and strong side beams.

Designer's thoughts:

"Our wish was to design a comfortable and cool folding stool. Concurrently it had to be decorative and distinct when hung upon the wall. Because the top seating parts are reversed towards each other, it can be sat on pleasantly for hours on end." – Herman Studio

Finish:

Natural oil treated

White oil treated

Black stained, RAL Code 9005, Gloss 10

Made-to-order:

Non-standard configurations (special colours etc.) are available upon request at a minimum order quantity

Product type: Stool

Environment: Indoor
